

ENVIRONMENTAL POLICY

WESTRAFO SRL is committed to preventing pollution, to guaranteeing the preservation and protection of the environment and to pursuing the continuous improvement of its environmental performance by minimising the risks related to the activities carried out and the products/services provided.

In accordance with these commitments, WESTRAFO aims to achieve the following objectives:

- Comply with current legislation and any voluntary agreements on its significant environmental impacts;
- Eliminate risks to personal safety and environmental protection, in relation to knowledge gained from technical progress and, where this is not possible, reduce them to a minimum, if possible by acting on their causes;
- Adopt a plan for the prevention and management of environmental emergencies;
- Carry out continuous control of the production process and monitor the related environmental aspects/impacts;
- Make suppliers of goods and services aware of the contents of the environmental policy;
- Transparently communicate its environmental performance to the local community and customers to gain and consolidate confidence in its activities and products/services;
- Rationalise the use of natural and energy resources;
- Strive to manage waste in such a way as to favour recovery and recycling rather than disposal wherever possible.

WESTRAFO is committed to providing the necessary resources, technical, economic and professional, so that the objectives of the environmental policy, as defined in this document, are fully achieved.

This Environmental Policy is disseminated at all levels and it is up to everyone to actively collaborate, to the extent of their competence, in the improvement of the Environmental Management System.

WESTRAFO ensures through subsequent verification activities that this policy is understood and implemented and that the stated objectives are pursued.
